Student-Athlete Concussion Policy

The General Assembly amended the *Code of Virginia* requiring each school division to develop policies and procedures regarding identification and handling of suspected concussions in student-athletes in the Commonwealth of Virginia. One part of this requirement is annual review by student-athletes and parents, information on concussions provided by the school division. This information can be provided by handouts, parent meetings, workshops and other methods individual schools deem appropriate. Included below is basic information on concussions and a Statement of Acknowledgement. This form must be signed and returned to the student-athlete's school in order to participate in any extracurricular athletic activity.

What is a concussion? A concussion is a type of brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head. Concussions can also occur from a blow to the body that causes the head and brain to move rapidly back and forth. Even what seems to be a mild bump to the head can be serious.
